

Added protection from debit card fraud...

Debit card fraud is on the rise, so we're working hard to protect you. Effective June 5, 2007, Vantus Bank has partnered with SHAZAM, to implement a monitoring system called R.A.D.A.R. to provide you with an added level of protection.

How it works...

Each time your card is used to make a purchase, R.A.D.A.R. reviews the transaction. If suspicious activity is detected, a SHAZAM fraud specialist will contact us to report the potential risk. SHAZAM will also attempt to contact you to verify the transaction or confirm fraud. All information is kept strictly confidential.

What you should expect...

You will be asked to verify that the contact information on our system is correct so that we can contact you quickly if we ever feel there is a possibility of fraudulent activity occurring on your account.

What you can do...

- *Always* use caution when providing debit card information.
- Protect your card by keeping it in a safe place.
- *Never* give your P.I.N. number to anyone.
- Contact us *immediately* if you suspect that your debit card has been stolen or compromised.
- Use online banking and eStatements to monitor your account and detect fraud early.

For more information...

If you have any question about this new monitoring system, or your responsibility in helping us update our systems, please contact us at 800.352.4620.
